The valuation of cryptocurrencies and futures may fluctuate, and, as a result, investors may lose more than their original investment. **Before deciding to trade, you should carefully consider your investment objectives, level of experience, and risk appetite. The possibility exists that you could sustain a total loss of initial margin funds and be required to deposit additional funds to maintain your position. If you fail to meet any margin requirement, your position may be liquidated and you will be responsible for any resulting losses.**

**Cryptocurrency investments are volatile and high-risk in nature. Don't invest more than what you can afford to lose. linjaz (IJZ) is not responsible for any losses incurred as a result of trading IJZ tokens.
